

MultiWay F

Bonar Plastics

Materials Handling Products

- Kunststoftanken, som lever op til kravene indenfor den farmaceutiske industri samt fødevarerindustrien.
- Constructed entirely of plastic the MultiWay F meets all the manufacturing requirements of the food and pharmaceutical industries.

Anvendelse

Denne container, som er hygiejnisk og rengøringsvenlig, er specielt egnet til fødevarerindustrien samt den farmaceutiske industri. Med de glatte indervægge og det store påfyldningshul på 300 mm, er denne container optimal at rengøre. MultiWay F kan leveres i forskellige størrelser og farver.

Produktkendetegn

- Kunststof IBC, fremstillet af Polyethylen (LLDPE).
- Spændingsfri, brudsikker, slagfast, korrosionsfri.
- Kan leveres i 3 størrelser: 600, 835 og 1010 liter.
- Sikre, forseglbare 2" butterfly haner i rustfrit stål.
- 150 mm og 300 mm påfyldningshul, kan forsegles.
- Med de særlige konstruktioner i bund og ved hanen garanteres 100 % tømning.
- Rengøringsvenlig.
- 2 fyldte containere kan stables i højden.
- Kan leveres i forskellige farver, f.eks. firmafarver.
- Firmalogo muligt.
- Kan genbruges 100 %.
- Besparende og miljøvenlig p.g.a at den kan anvendes flere gange.

Application

The MultiWay F is a safe reusable container; its unique design ensures it meets the hygiene and cleanliness demands of the food and pharmaceutical industries. The smooth interior and the large 300 mm diameter manway give excellent access for easy cleaning. The MultiWay F is available in various sizes and colours.

Product characteristics

- IBC made entirely of low-density polyethylene (LLDPE).
- A fully shatter, impact and corrosive proof container.
- Available in the following sizes: 600, 835 or 1010 litres.
- Safe and sealable 2" stainless steel butterfly valve.
- Sealable / tamper evident 150 mm or 300 mm manway opening.
- The container's uniquely designed outlet ensures 100% discharge from the outlet valve.
- The overall design makes for efficient cleaning.
- Can be stacked 2-high when full.
- Available in various colours e.g. your company colours.
- Company logo can be moulded into the container.
- Completely recyclable.
- Being constructed solely from plastic and reusable ensures minimal environmental impact.
- Offers considerable cost savings against more conventional containers.
